ADMINISTRATIVE POLICIES OF THE
MILWAUKEE PUBLIC SCHOOLS

ADMINISTRATIVE POLICY 7.33

GRADING SYSTEMS

(1) General Principles

(a) The fear and stigma of failure are often significant hindrances to the educational process. What a student has mastered, rather than what he/she was unable to master, is the important measure of a student’s education. The school system, therefore, shall seek in its instructional program to make achievement both recognizable and possible for students, and it shall emphasize equity of opportunity and achievement in its instruction, as well as in its assessment and grading practices.

(b) Grading practices in the Milwaukee Public Schools are based on the following principles:

1. Performance levels indicate the degree to which a student has achieved grade- or course-level standards.

2. All schools shall continue to inform parents/guardians of their grading practices through such means as the parent handbook for the standard-based report card, course syllabi, flyers, conferences, and parent/guardian meetings.

3. Academic performance of students with disabilities in grades K3-8 who receive instruction based on the same grade-level academic standards as do their regular education peers shall be reflected in performance levels on their grade-level standards-based report card, achieved with accommodations as stated in their individualized education plans (IEPs).

   a. Academic performance of students with significant disabilities in grades K3-8 who receive instruction based on the alternate grade-band academic standards shall be awarded performance levels on their alternate grade-band standards-based report card, as achieved with modifications as stated in their individualized education plans (IEPs).

   b. In addition to receiving the traditional or standards-based report card, all students with disabilities shall receive progress reports based on the goals of their individualized education plans (IEPs), with the frequency stated by the student’s IEP.

4. Standards-based report cards for grades K3-8 shall provide for both achievement and effort grades and definitions of the same and information regarding attendance and tardiness, as well as student behavior.

5. On high-school report cards, information on such matters as course difficulty (when it is an approved honors or advanced placement course, for example), mark-period and semester grade-point averages, and cumulative units earned will all be provided when possible.

6. All teachers must inform students at the beginning of a course of the grading practices for the course.
(2) **GRADE CHANGES — MIDDLE AND HIGH SCHOOLS**

Each middle and high school shall establish a procedure on grade changes within the following guidelines:

(a) No grade may be changed by anyone other than the teacher who issued the grade, except under extraordinary circumstances.

(b) Any transcript changes should be made through the school in which the original grade was issued.

1. After student enrollment, credits for a high school student transferring from another school district, state, or country is awarded by the counselor of the receiving school. The course name and number can be entered directly to the official transcript. No other grades may be manually posted to a student’s transcript record. Teacher posting final grades to the student report card is the formal process for grade placement on the official transcript.

(c) Students may repeat high-school courses that they have failed.

1. If, upon repeating a course, a student receives a higher grade, the higher grade will be used for the cumulative grade-point average (GPA) in place of the failing grade.

2. The record of the failed course will continue to be a part of the student’s permanent transcript, but the failing grade will no longer factor into the cumulative GPA. High school students may elect to retake a course previously failed, or almost failed (D or U). The most recent attempt at the course will appear on the official transcript and calculate into the cumulative GPA replacing the former grade.

(3) **RECORD MAINTENANCE — ALL SCHOOLS**

The following documents should be retained within the respective school for a minimum of five years: teachers’ grade books, report card copies, and interim progress reports. Only those documents that are not present in electronic format must be kept in hard copy for the five-year period.

**History:** Codified 1976; revised 1984, 8-28-85, 3-26-86, 8-31-94, 2-22-95, 3-29-12, 7-30-13
